WICANDERS®

Nature at your feet

Enabling wellbeing in every room

WICANDERS®

Nature at your feet

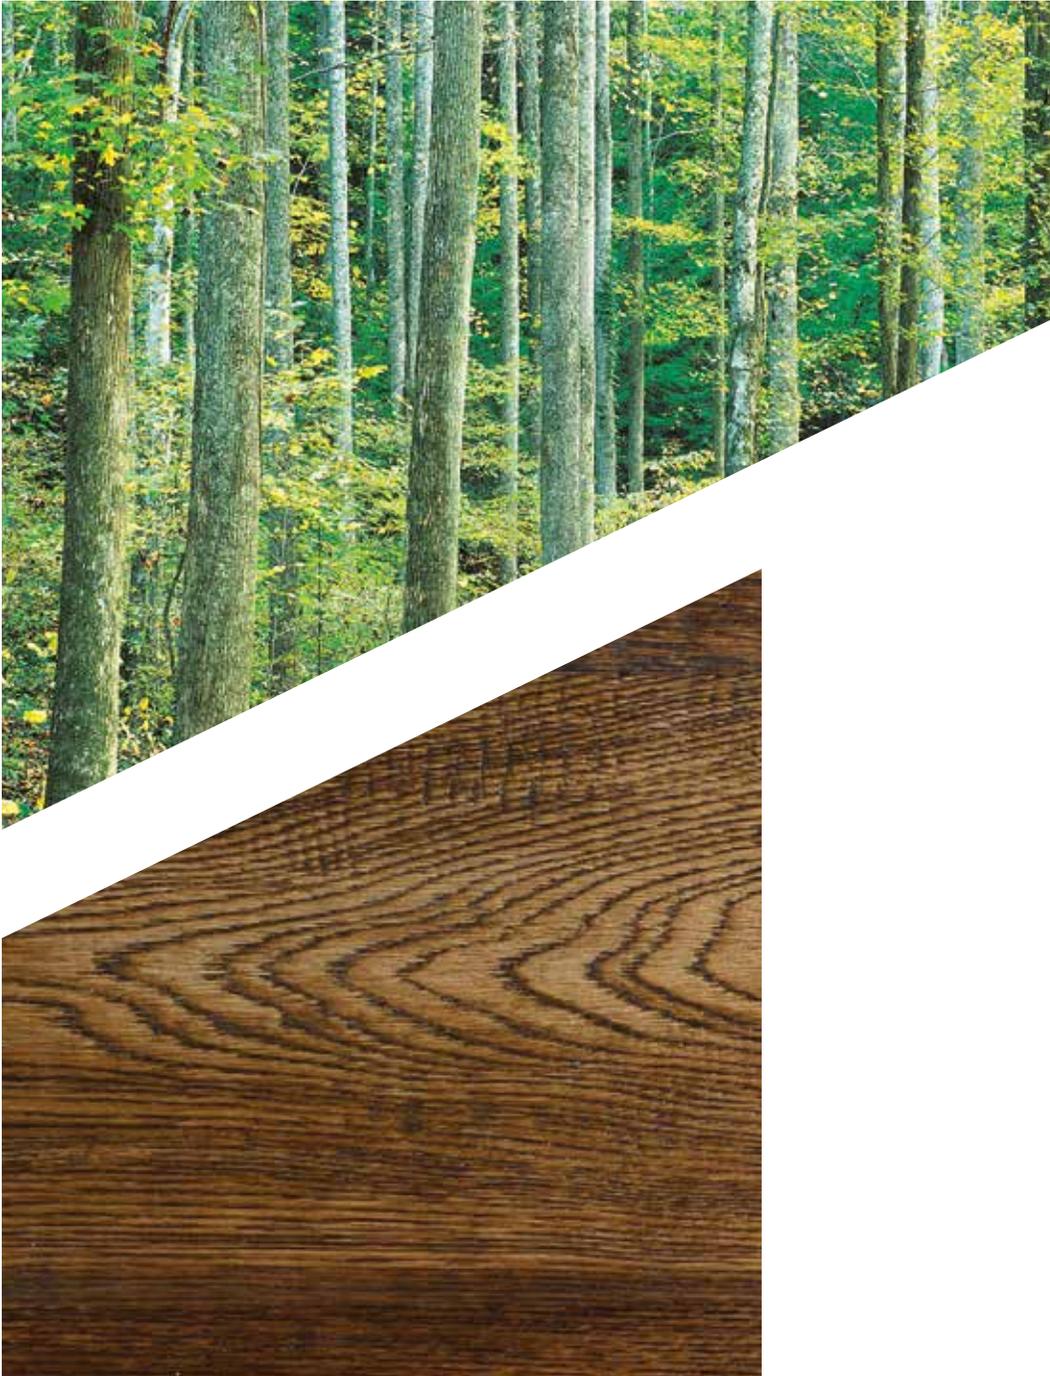

Wicanders has a legacy that goes back to 1868 and is the global leading brand in flooring products with cork technology. Present in more than 70 countries, its promise is to provide Floors for Living, ready for real life, for our home and office, for our different rhythms, for our family, for all those wonderful and simple, yet sometimes unexpected moments. Floors for our lives.

Wicanders Parquet collections offer a wide range of different sizes, features, finishes and colour tones customized to match different furniture styles and tastes. We invite you to get inspired to find the best option for your perfect home.

Wicanders developed a large variety of visuals. You find white or light colours to match the ongoing trend of pale Scandinavian look for stylish homes next to handmade aged and antique wooden floors, which are full of character creating an expressive and exciting look in both classic or ultra-modern interiors. Traditional planks available in distinctive finishes and colours emphasize on clean lines and functionality and give the interior a chic, elegant look.

Wicanders means wellbeing, a choice for life!

BORN FROM NATURE

In order to guarantee top-quality products, Wicanders works with certified factories on various continents, adopting a sourcing strategy that turns possible the use of specific technologies, suited to the distinct characteristics of each individual wood species. This strategy enables us to offer unique products, while contributing to the economic development of problematic regions. This process is monitored by an Amorim committee of experts who ensure compliance with Wicanders parameters.

Inspired by Nature

Mother Nature offers us perfection in the form of precious wood, which Wicanders selects and transforms into exclusive flooring so that your everyday surroundings give you the calm and comfort of the purest emotions.

Easy to install

The innovative Loc&Fold glueless locking systems make your installation easy and almost instantaneous. The majority of the items were designed for this floating type of use with no need for glues, unpleasant smells or complex assembly.

Enduring Beauty

Composed of three or multi-layer top quality technology structure, based on solid wood, Wicanders Parquet is very resistant and durable due to breakthrough manufacturing solutions that define this innovative concept. Its sturdiness is immediately felt, accentuating the charisma and comfort of your space for years to come.

BALANCING VENEER

Think green, choose Wicanders!

Environmentally responsible

Wicanders philosophy is one of deep respect for nature, reason why it only uses timber either from certified forests, or at least from sustainable and legal forestry. Composed of 100% natural materials, the multi-layer construction allows to take full advantage of each species, using fewer resources than in solid wood floor production.
